

Error Analysis

- ∞ I will **Mark** your tests and have them ready for you the next day.
- ∞ I will hand back your test and display the **Test KEY**.
- ∞ You may only use a **highlighter** to mark on your paper – no pencils or pens.
- ∞ Your task is to **find your errors**, and **highlight them**, then come to me and explain what error you made.
- ∞ Most test problems are 2 to 5 points each; when you finish verbally explaining to me what your error was, I will **award back some or all of the points** depending on the type of error and how well you explain what it was *{if I find the error you get less...}*.
- ∞ I will then **tally** your points for the total.
- ∞ If you do not score at least an 80% 😞, you must **retake** the test. You may not take the *next test* until after you successfully pass the previous one (however, you may work on the next chapter which I highly recommend).
