

College Math Placement Practice Project

Name: _____

You will be taking a series of practice tests using the Accuplacer® website.

The goal of this project is to Practice problems that may appear on a College Placement Test. Be sure to get help on the concepts that you have troubles with.

- Go to the Accuplacer website, http://www.testprepreview.com/accuplacer_practice.htm
- Click on the Test you wish to take (you should do them in the order below).
- You may **NOT** use a calculator.
- Complete the problems in order.
- When you get to the bottom of the page, Print the page out for each test.
- On the print out, write down the **questions** that you missed from the test. Show how you correctly solve the problem and state the correct answer. This will help you study the problems that you had trouble with.
- You should get help on the questions that you missed; a classmate, parent or teacher.
- Collect all of the printouts together, label them properly and staple into a packet and turn it in with **this page** as a cover sheet.

1. Arithmetic
