

Math Projects

Complete a math project somewhat related to content in this learning plan. These projects could involve:

- **Historical** events, **People**, or **Technology**
- **Banking** or **Sports** statistics
- **Experiment** that includes data collection and analysis.
- **Models**, tables, charts, graphs, written reflection, or algebraic notation.
- **Artwork** with a description of the mathematics.
- The Project should reflect a **sense of professionalism** and be presented as such. It should be simple to identify this as a Math Project.
- It is intended to be an **Application of Math**.
- It should take about **3 hours** to complete.
